

Lawson's Finest Liquids

suncommon

**Lawson's
Finest Liquids**

PERFORMANCE

Annual estimated energy production
240,000 kWh

Estimated energy production over guaranteed life (25 years)
6,000 MWh

COST BENEFIT ANALYSIS

Annual energy savings
\$44,500

Energy savings at 25 years
\$1,250,000

SYSTEM

System Size
215.4 kWDC

Module Model
Longi Bifacial

Racking System
RBI Solar Canopy

Orientation
212 degrees south

Tilt
3 degrees

Inverter Technology
CPS 50kWac

Number of Inverters
3

ANNUAL ENVIRONMENTAL BENEFITS

288
Metric tons CO₂ offset

2,818
Trees planted

26.9
Homes powered
